SAFE HARBOR

A number of forward-looking statements will be made during this presentation. Forward-looking statements are any statements that are not historical facts. These forward-looking statements are based on the current expectations of Motorola Solutions, and we can give no assurance that any future results or events discussed in these statements will be achieved. Any forward-looking statements represent our views only as of today and should not be relied upon as representing our views as of any subsequent date. Forward-looking statements are subject to a variety of risks and uncertainties that could cause our actual results to differ materially from the statements contained in this presentation.

Information about factors that could cause, and in some cases have caused, such differences can be found on pages 8 through 19 in Item 1A of Motorola Solutions’ 2012 Annual Report on Form 10-K, and in our other SEC filings available for free on the SEC’s website at www.sec.gov, and on Motorola Solutions’ website at www.motorolasolutions.com/investor

This presentation is being made on the 21st of May 2013. The content of this presentation contains time-sensitive information that is accurate only as of the time hereof. If any portion of this presentation is rebroadcast, retransmitted or redistributed at a later date, Motorola Solutions will not be reviewing or updating the material that is contained herein.
USE OF NON-GAAP MEASURES

In addition to the GAAP results provided during this event, Motorola Solutions has provided certain non-GAAP measurements. Motorola Solutions has provided these non-GAAP measurements as a measure to help investors better understand its core operating performance, enhance comparisons of Motorola Solutions’ core operating performance from period to period and to allow better comparisons of Motorola Solutions’ operating performance to that of its competitors. Among other things, the Company’s management uses these operating results, excluding the identified items, to evaluate the performance of its businesses and to evaluate results relative to incentive compensation targets. Management uses operating results excluding these items because they believe this measure enables them to make better period-to-period evaluations of the financial performance of its core business operations. There are inherent limitations in the use of operating results excluding these items because the company’s GAAP results include the impact of these items. The non-GAAP measures are intended only as a supplement to the comparable GAAP measures and the Company compensates for the limitations inherent in the use of non-GAAP measures by using GAAP measures in conjunction with the non-GAAP measures. As a result, investors should consider these non-GAAP measures in addition to, and not in substitution for, or as superior to, measures of financial performance prepared in accordance with GAAP.

Details of these items and reconciliations of the non-GAAP measurements provided during this presentation to GAAP measurements can be found in the Appendix to this presentation and on Motorola Solutions’ website at www.motorolasolutions.com/investor.
2013 FINANCIAL ANALYST MEETING AGENDA
MAY 21, 2013

Welcome .......................................................... Shep Dunlap
Strategic Overview .............................................. Greg Brown
Sales & Product Operations ............................... Mark Moon
Government ..................................................... Bob Schassler
Enterprise ....................................................... Girish Rishi

BREAK
